EXECUTIVE PROFILE

Visionary engineering executive with 18+ years of experience leading globally distributed engineering organizations of 250+ engineers and managing annual budgets exceeding \$65M. Track record of successful multi-cloud transformations, high-velocity organizational scaling, technical M&A integrations, and presenting quarterly strategic roadmaps to corporate boards.

AREAS OF EXPERTISE

? Global Organization Scaling (250+ Engineers) ? P&L & Capex/Opex Management (\$65M+) ? Cloud Architecture & Migration
? AI/ML Platform Strategy ? Board & Investor Relations ? Technical M&A Due Diligence ? High-Reliability Systems (99.999%)

EXECUTIVE EXPERIENCE

Senior Vice President of Engineering

2021 - Present

Apex Global Cloud Systems | Seattle, WA

- ? Scaled global engineering organization from 90 to 260 engineers across US, EU, and APAC while reducing employee attrition by 22%.
- ? Directed the architectural migration of multi-tenant enterprise data platform to Kubernetes/AWS, decreasing infrastructure costs by \$14M annually.
- ? Partnered with CEO and CFO on annual strategic planning, Capex/Opex allocations (\$65M), and quarterly board of directors presentations.
- ? Established enterprise AI platform division, launching real-time generative intelligence features contributing \$30M net new ARR in 2023.

Vice President of Engineering

2016 - 2021

Horizon SaaS Technologies | San Francisco, CA

- ? Led a team of 110 engineers and 6 directors across core product, infrastructure, and security divisions.
- ? Spearheaded technical due diligence for 3 strategic acquisitions valued at \$120M total, successfully integrating 45 acquired engineers.
- ? Introduced automated CI/CD pipelines and microservices architecture, increasing deployment frequency from monthly to 12x daily.

EXECUTIVE EXPERIENCE (CONTINUED)

Director of Engineering

2012 - 2016

Beacon Software Labs | San Jose, CA

- ? Managed 40 engineers delivering low-latency financial transaction APIs handling 2B+ daily requests with 99.999% availability.
- ? Recruited and mentored 8 engineering managers who advanced to director-level leadership positions.
- ? Implemented automated security compliance framework meeting SOC2 Type II and ISO 27001 certification requirements.

Senior Software Engineering Manager

2006 - 2012

Pacific Web Networks | Seattle, WA

- ? Directed distributed database engineering team building geo-replicated caching layers.
- ? Promoted through consecutive roles from Senior Software Engineer to Engineering Manager and Senior Manager.

EDUCATION

Master of Science (M.S.) in Computer Science

2002 - 2004

Stanford University | Stanford, CA

Bachelor of Science (B.S.) in Electrical Engineering & Computer Science

1998 - 2002

University of California, Berkeley (UC Berkeley) | Berkeley, CA

BOARD ADVISORY & INDUSTRY LEADERSHIP

- Technical Advisory Board Member, OpenSource Cloud Foundation (2019 - Present)
- Keynote Speaker, O'Reilly Software Architecture Conference (2020, 2022)
- Mentor, Women in Tech Executive Leadership Council (2017 - Present)
