## QUALIFICATION

- 2nd Mate(FG) Certificate of Competence from Govt.Of India
- B.Sc. in Nautical Science
- HSC (12th) -78.8%
- SSC (10th) -9.4 CGPA
- GMDSS

•Dynamic and safety-focused Deck Officer with proven seagoing experience across LPG carriers, LNG carriers, crude oil tankers, and bulk carriers. Experienced in global trading routes including the United States, Europe, Brazil, Caribbean, Africa, Middle East, and Indian subcontinent.

- Demonstrates strong competence in navigation watchkeeping, cargo operations, and safety management systems in compliance with SOLAS, MARPOL, ISM, and STCW regulations.
- Hands-on exposure to LEG &LPG operations, STS transfers, and dry-docking ,with a proactive approach toward safety culture, operational efficiency, and environmental protection.
- Adept at using modern navigational systems including ECDIS (JRC, Tokyo Keiki, E-Globe), ARPA, and GMDSS. Recognized as a disciplined, reliable, and motivated officer aiming to progress within the LNG sector.

## CAREER OBJECTIVE:

- To serve as a Third Officer on LNG carriers within a reputed and safety-driven organization, contributing to safe navigation, efficient cargo operations, and continuous improvement of onboard safety culture, while progressing toward higher certification and responsibility.

## PROFESSIONAL SUMMARY

- Certified 2nd Mate (FG) with sailing experience as Third Officer on LEG , LPG carriers and bulk carriers
- Exposure to LNG vessels during cadetship and cargo operations
- Experience in STS operations and dry-docking projects
- Strong knowledge of gas tanker operations (Advanced DCE certified)
- Experienced in worldwide trading: US, Europe, Brazil, Caribbean, Africa, Middle East, India & Bangladesh
- Proficient in ECDIS (JRC, Tokyo Keiki, E-Globe), ARPA, Radar & GMDSS
- Strong team player with a safety-first mindset and ability to work in high-pressure environments
- Served with reputed organizations including Columbia Ship Management ,Darya Shipping and The Shipping Corporation of India Ltd..
- Extensive expertise in LEG/LPG cargo operations, cargo planning, STS transfers, terminal coordination, and safe cargo handling procedures.
- Strong proficiency in Bridge Team Management, navigation watchkeeping, passage planning, Radar/ARPA, and GMDSS operations.
- In-depth knowledge and compliance with SOLAS, MARPOL, ISM, and ISPS regulations ensuring safe and environmentally responsible vessel operations.

SOFT SKILLS  
Leadership  
Communication  
Ability to work in high  
stress environment  
Problem solving  
Decision making  
Methodical Initiative  
Taker

- Demonstrated leadership in supervising multinational deck teams and fostering a strong onboard safety culture.
- Skilled in risk assessment, emergency response management, crisis handling, and accident prevention strategies.
- Committed to operational excellence, regulatory compliance, environmental protection, and continuous professional development.

## WORK EXPERIENCE

### 3RD OFFICER

Columbia Ship Management , Darya Shipping & The Shipping Corporation of India Ltd | Oct 2022 - Till Now

- Served as Officer of the Watch (OOW), ensuring safe navigation in compliance with COLREG, SOLAS, STCW, and company bridge procedures in ocean, coastal, and restricted waters.
- Assisted in voyage planning, route monitoring, chart corrections (paper & ECDIS), and maintenance of up-to-date nautical publications and navigational warnings.
- Maintained and monitored safety equipment including lifeboats, life rafts, rescue boats, SCBA sets, fire detection and firefighting systems.
- Responsible for inspection, testing, and maintenance of Life-Saving Appliances (LSA) and Fire-Fighting Appliances (FFA), ensuring full operational readiness and SOLAS compliance.
- Performed cargo watchkeeping during LNG operations including loading, discharge, cool-down, gassing-up, and STS transfers, ensuring strict adherence to cargo plans and terminal safety requirements.
- Monitored cargo parameters such as tank levels, pressure, temperature, and manifold operations to ensure safe and pollution-free cargo handling.
- Participated in mooring operations, anchoring, and port operations, ensuring deck safety and proper communication with terminals and pilot stations.
- Assisted Chief Officer in cargo monitoring, ballast operations, and documentation
- Participated in STS operations and dry-docking activities.
- Ensured compliance with ISM, MARPOL, and company SMS procedures
- Actively involved in emergency drills (fire, abandon ship, oil spill response, enclosed space entry) and contributed to onboard risk assessments and safety meetings.

## DECK CADET

### THE SHIPPING CORPORATION OF INDIA LTD

- Assisted senior deck officers in safe navigation, bridge watchkeeping support, and lookout duties in compliance with COLREG and company procedures.
- Participated in cargo operations including LNG loading and discharging, crude oil loading, discharge, tank cleaning, crude oil washing (COW), bulk Carrier cargo operation and ballast operations under supervision of Chief Officer and duty officers.
- Supported monitoring of cargo parameters such as tank soundings, ullage measurements, temperature and pressure readings during cargo operations.
- Assisted in operation and monitoring of the Inert Gas System (IGS) to ensure safe tank atmosphere and compliance with safety regulations.
- Participated in mooring, anchoring, and unmooring operations, ensuring adherence to safety procedures and effective deck coordination.
- Assisted in routine deck maintenance including chipping, painting, greasing, and upkeep of cargo gear and deck machinery.
- Supported inspection, maintenance, and familiarization of Life-Saving Appliances (LSA) and Fire-Fighting Appliances (FFA) as part of onboard training and safety compliance.
- Took part in emergency drills including fire, abandon ship, oil spill response, and enclosed space entry, gaining practical knowledge of emergency procedures.
- Maintained training record book (TRB) and completed assigned onboard training tasks in accordance with STCW requirements.
- Developed practical understanding of MARPOL regulations, pollution prevention measures, and safe tanker operations during sea service.
